

European Water Innovation Conference 2019 Technical Visits

"Accelerating action to tackle water pollution and enhance EU preparedness to water-related climate change impacts" #EUWIC

1. Title

Ebro River Basin Authority. Automatic System for Hydrological Information (SAIH) and Decision Support System (SAD)

2. Organiser

Ebro River Basin Authority (Confederación Hidrográfica del Ebro)

3. Description of the visit

Presentation of the real time monitoring system and decision support system used by the Ebro River Basin Authority for water management.

<http://www.saihebro.com/saihebro/index.php?url=/datos/introduccion>

4. The visit includes

Visit to the control room of the system and display of the system working

5. What is innovative about it?

Innovation in water management, especially in extreme events, floods and droughts, by the use of a wide number of stations for real time monitoring. In the case of floods, innovation in flood forecasting and its use for warning and better management, diminishing damages.

The system also provides with capacities to increase water efficiency.

6. Location, time and accessibility

Meeting point:

Ebro River Basin Authority headquarters. Paseo Sagasta, 24-26, Zaragoza

Time:

9:00 h to 10:30 h

7. Máximo number of attendees

30
