

European Water Innovation Conference 2019 Technical Visits

"Accelerating action to tackle water pollution and enhance EU preparedness to water-related climate change impacts" #EUWIC

1. Title

Visit the Cervezas Ambar Brewery

Organiser

CERVEZAS AMBAR

2. Description of the visit

This is the longest-standing brewery in Spain still in operation, which stands at the very heart of the city of Zaragoza, in the historic San José district. It is a living and breathing museum of beer, retaining its own malting facility from the 1930s, and its traditional fermentation vats. Every year it receives more than 10,000 visitors, eager to learn about the brewing process at first hand.

The visit includes

Tasting beers

3. What is innovative about it?

Location, time and accesibility

C/Ramón Berenguer IV, nº1 – 50007 Zaragoza

Duration: 2h

The visit goes through the facilities of an active productive center. Because they date from 1900 they are not adapted for people with reduced mobility.

Máximum number of attendees

Max. 20-25 pax

4. Pictures
